Website Fixes: Execution-Ready Plan

TO: Kianna, Taha **FROM:** Donna **DATE:** February 26, 2026

This document contains the exact copy, structure, and style changes required to fix keanonbiz.com, zenoflo.com, and manumation.ai. All instructions are execution-ready. The goal is to fix what is broken, clarify the brand ecosystem, and optimize for conversion. No strategic debates—just execution.

The Ecosystem Story

First, the unified brand story. This is the core narrative that connects all three properties. A version of this should appear on each site to eliminate confusion.

> ***KeanOnBiz*** *is the strategic consulting arm, where Jeremy Kean provides coaching and hands-on guidance for entrepreneurs. The* ***Manumation Method*** *is his proprietary framework for building systems-driven businesses, detailed in the book and supported by the DONNA AI companion.* ***Zenoflo*** *is the underlying technology—the all-in-one software platform that runs the systems we design for our clients.*

B. Structure Changes

1. **Add New Page: “Services & Pricing”**
    - Add a “Pricing” link to the main navigation.
    - This page will house the core offer, making it transparent.
    - **Page Content (Full Copy):**

The 3-Phase Business Bottleneck Audit: $2,500

Our foundational service is a comprehensive, top-to-bottom audit of your business operations. We identify the core friction points preventing growth and deliver a prioritized, actionable roadmap to fix them. This is the essential first step for any entrepreneur serious about building a scalable, systems-driven business.

Phase 1: Discovery & Mapping (Week 1)

We conduct a 90-minute deep-dive interview to understand your goals, challenges, and current processes. We map your existing workflows across the 5 core pillars: Lead Generation, Nurturing, Sales, Fulfillment, and Brand Advocacy.

Deliverable: A complete visual process map of your current business operations.

Phase 2: Bottleneck Analysis (Week 2)

We analyze the process map to pinpoint the exact bottlenecks, manual redundancies, and system gaps that are costing you time and money. We score each friction point based on its impact on revenue and efficiency.

Deliverable: A detailed Bottleneck Report identifying and prioritizing every operational weakness.

Phase 3: Actionable Roadmap (Week 3)

We deliver a step-by-step Manumation Roadmap. This is not a theoretical strategy document; it is a specific, technical plan outlining the exact automations to build, scripts to implement, and systems to configure. It includes tool recommendations and a 90-day execution plan.

```
**Deliverable:** A complete, execution-ready Systems & Automation
Roadmap.

2. **Update Conversion Path:**
    - **Old Path:** Visitor → Vague Assessment → ???
    - **New Path:** Visitor → "Services & Pricing" Page → Book $2,500 Audit OR Book a Free Call. The "Take the Bottleneck Audit" CTA becomes a secondary, lead-gen path for those not ready to buy.

C. Style/Design Fixes

Task	Owner	Est. Time	Instructions
Fix Stats Counter	Taha	1 hour	The counter under the hero headline randomizes on load. This kills credibility. Replace it with fixed, realistic numbers. **Use: 75+ Businesses Helped, 1,500+ Hours Saved, 12+ Brands Built.**
Fix Manumation Link	Taha	15 mins	The Manumation card in "The Ecosystem" section links to `/coming-soon` (a 404 page). Change the link to `https://manumation.ai`.
Remove "Coming Soon"	Kianna	30 mins	Delete the entire "COMING SOON" sections for "AI Agent Orchestration Platform" and "The MicroPod".
Remove Footer Link	Taha	5 mins	Delete the stray "Google Fonts" link from the footer.
Add LinkedIn Link	Kianna	5 mins	Add a LinkedIn icon and link to Jeremy's profile (`https://www.linkedin.com/in/jeremy-kean-manumation/`) in the footer social links section.

D. Ecosystem Integration

1. **Add “The Ecosystem Story” Section:** Place the official ecosystem paragraph (from the top of this doc) directly below “The Ecosystem” (Strategy/Method/Machine) section.
2. **Update Footer:** Change the footer tagline to: “KeanOnBiz provides the strategy, Manumation provides the method, and Zenoflo provides the machine. Building better systems for modern businesses.”

2. zenoflo.com

Objective: Reposition Zenoflo as the underlying infrastructure, not the hero product. Fix all broken CTAs to make the site functional.

A. Copy Changes (Before → After)

Location	Element	Current Text (Before)	Replacement Text (After)
Hero Section	Headline	Run Your Business, Not Your Software	The Operating System for Your Systems-Driven Business
Hero Section	Subheadline	All your tools in one place. Automate follow-ups, close more deals, and grow without the tech headaches.	Zenoflo is the all-in-one platform that powers the automated systems we build for our consulting clients. It is the machine behind the Manumation Method.
Founder Section	Body Text	Jeremy Kean built Zenoflo after years of watching coaches and agency owners drown in tech chaos…	Zenoflo is the technology backbone used by KeanOnBiz to implement the Manumation Method for clients. It was chosen and configured by Jeremy Kean to be the single source of truth for a systems-driven business.
Pricing Section	DIY Header	DIY - Your Business, Your Reign	Standard Plan
Pricing Section	DIY Description	Complete toolkit for the spirited entrepreneur who loves steering their own ship.	For businesses that need a powerful, unified platform and prefer to handle their own setup and integration.

B. Structure Changes

1. **Remove Pages:** The “Middleware” and “Agentmob.ai” pages are confusing and unnecessary. Remove them from the navigation.
2. **Simplify Navigation:** The new navigation should be: **Features, Pricing, About Us, Login.**
3. **New Conversion Path:**
    - **Old Path:** Broken.
    - **New Path:** Visitor → Clicks “Get Started” (in nav or on pricing) → `/checkout` page for the $149/mo plan. The primary goal is to support KOB clients, not acquire new SaaS users directly.

C. Style/Design Fixes

Task	Owner	Est. Time	Instructions
Fix ALL Broken CTAs	Taha	2 hours	**This is critical.** The homepage is non-functional. Link the following buttons to the `/checkout` page: `Start Your Journey`, `Get Started` (DIY Plan), `Start Your Free Trial`. Link the following buttons to the KeanOnBiz calendar (`https://keanonbiz.com/jeremys-calendar`): `Book a Call`, `Learn More` (DWY/DFY plans), `Get a Custom Quote`.
Replace Hero Video	Kianna	1 hour	The video of the unidentified woman is confusing. Replace it with a screen recording of the Zenoflo platform in action, or a simple animated logo. No people.
Fix Copyright Date	Taha	5 mins	Change the footer copyright from "© 2025" to "© 2026". Do the same on the `/checkout` page.
Add Full Footer	Kianna	30 mins	Add a complete footer with the following: Contact Email (`support@keanonbiz.com`), Phone (`(765) 390-6007`), Social Links (LinkedIn, Facebook, Instagram from KOB), and links to new **Terms of Service** and **Privacy Policy** pages (Taha to create blank pages, Kianna to add standard template copy).

D. Ecosystem Integration

1. **Add "Part of the KeanOnBiz Ecosystem" Section:** Add a new section above the footer. Use "The Ecosystem Story" paragraph from the top of this doc.
2. **Link back to KeanOnBiz:** The main navigation should have a link that says "Consulting by KeanOnBiz" and points to `https://keanonbiz.com`.

3. manumation.ai

Objective: Fix the massive credibility gap caused by the outdated `/book` page. Reposition the site to support the imminent launch of the DONNA tool by capturing leads.

A. Copy Changes (Before → After)

Location	Element	Current Text (Before)	Replacement Text (After)
Hero Section	Sub-CTA	Online Companion Opens Soon	DONNA AI Companion: Join the Waitlist
Nav Menu	CTA Button	INITIALIZE DONNA	Take the Audit
Bottom CTA	Body Text	…then let DONNA guide you through building systems that work while you sleep.	…and see the exact framework DONNA uses to build systems that work while you sleep.

B. Structure Changes

1. **CRITICAL: Overhaul the `/book` Page**
    - This page is for people who have already paid for the book. It's a massive trust failure right now.
    - **New Page Content (Full Copy for `/book`):**

```

2. **Add a Waitlist Capture Form:** Create a simple, single-field email capture page or modal for the DONNA waitlist.
3. **New Conversion Path:**
    - **Old Path:** Visitor → Buy Book → Dead-end `/book` page.
    - **New Path:** Visitor → Buy Book → Visit `/book` page → Join Waitlist & Community. OR Visitor → Take Audit → Join Waitlist.

C. Style/Design Fixes

Task	Owner	Est. Time	Instructions
Update `/book` Page	Taha/Kianna	2 hours	Taha to build the new page structure. Kianna to input the copy above. This is the #1 priority.
Create Waitlist Form	Taha	1 hour	Create a simple page/form that captures emails for the waitlist and shows a “Thank You” message.

Add Full Footer	Kianna	30 mins	Add a complete footer with links to KeanOnBiz, Terms of Service, and Privacy Policy. Remove the “VibeKoderz” credit.

D. Ecosystem Integration

1. **Clarify Author:** The “Meet Jeremy Kean” section already links to Kean on Biz. This is good. Ensure the footer also links back to `keanonbiz.com` as the primary business site.
