KeanOnBiz: The Go-Forward Plan

Marketing Strategy & Execution Roadmap

February 27, 2026

CURRENT REVENUE

~$19.5k

Monthly revenue is strong, but not predictable or scalable.

The Reality: Great Product, Broken Engine

- **No Consistent Pipeline**
  Lead generation is ad-hoc and nurture is weak to non-existent.
- **Founder Bottleneck**
  Jeremy is involved in every sale, delivery, and decision.
- **Credibility Gap**
  Three websites with broken links and confusing messaging undermine trust.
- **Invisible to Market**
  No content machine running; reliance on inauthentic AI avatars.

THE VISION

One Ecosystem. Three Brands. One Mission.

"Help business owners stop being employees in their own companies."

The Assets

We have the book, the framework, the tool, and the consulting engine.

The Shift

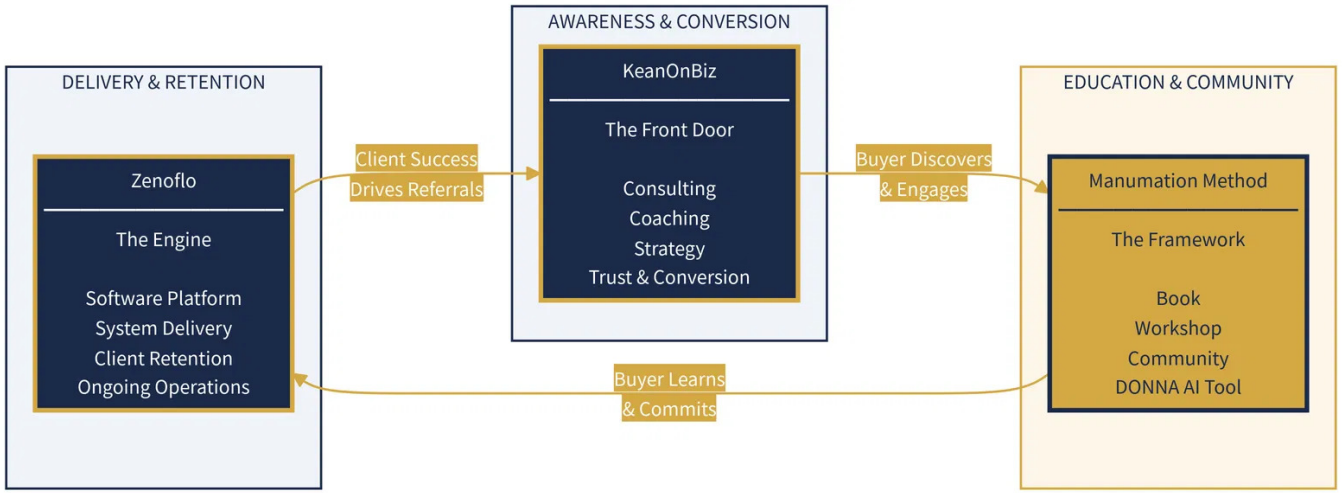
We've spent months building. Now we ship. No more silence.

The Goal

A machine that turns it all into predictable revenue without burning Jeremy out.

The Ecosystem

Three Brands, One Unified Journey



KeanOnBiz

THE FRONT DOOR

Consulting, coaching, and strategy. This is where trust is built, deals are closed, and the relationship begins.

Manumation

THE FRAMEWORK

Education and community. The book, workshop, and AI tool that scale Jeremy's knowledge without his time.

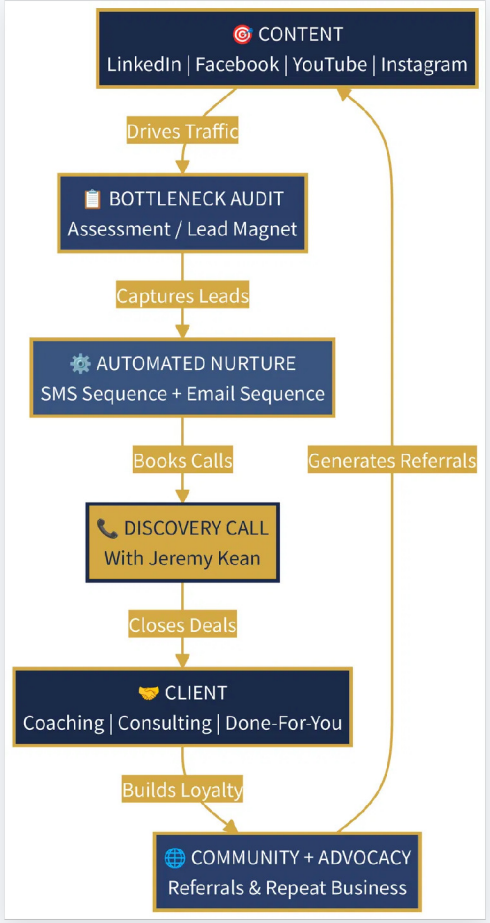
Zenoflo

THE ENGINE

Delivery and retention. The software platform that runs the systems we design. Clients stay for the engine.

The Funnel: From Content to Client

A predictable client acquisition engine



01 Content Drives Traffic

Consistent posting across LinkedIn, Facebook, YouTube, and Instagram drives awareness and traffic to the front door.

02 The Bottleneck Audit

The primary lead magnet. A high-value diagnostic assessment that captures intent and qualifies the lead.

03 Automated Nurture

Immediate SMS sequence (3 texts/7 days) and email follow-ups build trust and prompt action while you sleep.

04 Discovery Call

Qualified leads book directly with Jeremy. High-ticket conversion happens here, focused on strategy and fit.

05 Community & Advocacy

Satisfied clients enter the ecosystem, becoming advocates who feed the referral loop back to the top.

Content Pillars

Five themes that drive every post and map to the funnel.

01

PAIN

The Overwhelmed Operator

Speaks to the daily frustration of being trapped in the business.

EXAMPLE
"You Didn't Start a Business to Become Its Employee."

02

HOPE

Escaping the Chaos

Practical strategies for getting organized and delegating.

EXAMPLE
"Document, Delegate, or Delete: The 3 D's."

03

PHILOSOPHY

Systems-Driven Mindset

Shifts thinking from "working harder" to "building smarter."

EXAMPLE
"Thinking in Flows, Not Tasks."

04

PROOF

Automation in Action

Real-world examples of automations that save time.

EXAMPLE
"How We Automated Client Onboarding."

05

VISION

View from the CEO Chair

High-level strategy and the benefits of freedom.

EXAMPLE
"The Real Job of a CEO is to Think, Not Do."

The Content Machine: Weekly Production Process

One hour from Jeremy powers the entire engine.

Jeremy (The Voice)

Records 1 hr/week raw video. **NO editing, writing, or scheduling.**

Kianna (The Engine)

Transforms raw content into all assets (video, copy, email) and schedules everything.

Gaven (The Enforcer)

Manages calendar, tracks KPIs, and holds team accountable.

WEEKLY CADENCE

Day	Action	Owner
Monday	Records raw content for the week	Jeremy
Tuesday	Reviews raw content, plans assets	Kianna
Wed–Fri	Produces and schedules all content	Kianna
Friday	Reviews upcoming week & KPIs	Gaven

Channel Strategy: Depth Over Width

The Rule: Create for ONE, Repurpose to Rest.

PRIMARY CHANNEL

LinkedIn

3-4x per week

Our main stage. Ideal for our B2B audience, long-form text, and building authority. This is where we invest 80% of our creative energy.

Facebook

SECONDARY

2-3x per week

Community engagement. Repurposed from LinkedIn with minor tweaks.

YouTube

SUPPORT

1 long-form + shorts

Searchable library. Home for edited videos and clips.

Instagram / TikTok

SUPPORT

3-5x per week

Pure reach. Repurposed short-form clips only.

The Weekly Calendar

A consistent rhythm that builds trust and drives action.

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
THEME	THEME	THEME	THEME	THEME
The Pain	**The Framework**	**The Proof**	**Behind the Scenes**	**The Path Forward**
Relate to the "Overwhelmed Operator." Speak to their frustration and daily struggles.	Teach a concept from the "Systems-Driven Mindset." Educational and authoritative.	Share a case study or "Automation in Action." Show, don't just tell.	Show the process. "Document, Don't Create." Build authenticity.	Direct Call-to-Action. Drive traffic to the Bottleneck Audit or Discovery Call.

KEY INSIGHT This structure directly ties content to the lead magnet. Every week ends with a CTA that drives the audience toward the Bottleneck Audit.

Lead Nurture Path

Automated sequences that book calls while you sleep.

STEP 01

Bottleneck Audit

Primary lead magnet. Captures name, email, phone, and key business data.

STEP 02 (SMS)

SMS Sequence

3 texts over 7 days. Immediate personal follow-up to book a call.

STEP 03 (EMAIL)

Email Sequence

3-5 emails. Delivers value, case studies, and social proof.

STEP 04

Discovery Call

Qualified leads book directly on Jeremy's calendar. High-intent only.

** Retargeting ads will be implemented in Phase 2, after the organic funnel is proven.*

What We Need to Decide Today

Four decisions that unlock everything.

DECISION 01

Approve website changes?

The current sites are actively undermining our credibility. We need a "Go" to fix them immediately.

DECISION 02

Agree on the ecosystem story?

KeanOnBiz (Front Door), Manumation (Framework), Zenoflo (Engine). Everything connects.

DECISION 03

Jeremy commits to 1 hr/week?

This is the fuel for the entire content machine. Without this raw input, nothing else works.

DECISION 04

Accept roles & cadence?

Jeremy (Voice), Kianna (Engine), Gaven (Enforcer), Taha (Foundation). Everyone stays in their lane.

LET'S GO

"The pieces are all here. They just need to be connected."

We are starting from $19,500/mo with a book, a framework, and a team. The only thing missing is the system. That is what we are building. Starting now.

ACTION 01

Taha begins critical website fixes this week.

ACTION 02

Jeremy records his first batch of raw content on Monday.

ACTION 03

Kianna builds the SMS nurture sequence in GHL.

ACTION 04

Gaven sets up the KPI tracking dashboard.

ACTION 05

Team reconvenes in 30 days to review progress.
